Our FY2025 outlook provided:

- Includes the impact of the acquisition of Adumo, which closed in October 2024 (in Q2 2025).

- Excludes the impact of unannounced mergers and acquisitions that we may conclude.

For FY2026, the year ending June 30, 2026, we expect:

For the year ending June 30, 2026, we expect Group Adjusted EBITDA between ZAR 1.25 billion and ZAR 1.45 billion. This includes the impact of Recharger for 12 months in FY2026 and excludes the impact of unannounced mergers and acquisitions that we may conclude.

Management has provided its outlook regarding Net Revenue and Group Adjusted EBITDA, which are non-GAAP financial measures and excludes certain revenue and charges. Management has not reconciled these non-GAAP financial measures to the corresponding GAAP financial measures because guidance for the various reconciling items is not provided. Management is unable to provide guidance for these reconciling items because they cannot determine their probable significance, as certain items are outside of the company's control and cannot be reasonably predicted since these items could vary significantly from period to period. Accordingly, reconciliations to the corresponding GAAP financial measure is not available without unreasonable effort.

Use of Non-GAAP Measures

U.S. securities laws require that when we publish any non-GAAP measures, we disclose the reason for using these non-GAAP measures and provide reconciliations to the most directly comparable GAAP measures. The presentation of Group Adjusted EBITDA, Group Adjusted EBITDA margin, Net Revenue, fundamental net (loss) income, fundamental (loss) earnings per share, and headline (loss) earnings per share are non-GAAP measures. Refer to Attachment A for a reconciliation of these non-GAAP measures.

Non-GAAP Measures

Group adjusted EBITDA

Group Adjusted EBITDA is net loss before interest, taxes, depreciation and amortization, adjusted for non-operational transactions (including loss on disposal of equity-accounted investments), loss from equity-accounted investments, stock-based compensation charges and once-off items. Once-off items represent non-recurring expense items, including costs related to acquisitions and transactions consummated or ultimately not pursued. Group Adjusted EBITDA margin is Group Adjusted EBITDA divided by revenue.

Net Revenue

We generate revenue from the provision of transaction-processing services through our various platforms and service offerings. We use these platforms to (a) sell prepaid airtime vouchers (“Pinned Airtime”) which was held as inventory, and (b) distribute pre-paid solutions including prepaid airtime vouchers (which we do not hold as inventory) (“Pinless Airtime”), prepaid electricity, gaming vouchers, and other products, to users of our platforms. We act as a principal when we sell Pinned Airtime that were held as inventory and record revenue and cost of sales on a gross basis when sold. We act as an agent in a transaction when we provide pre-paid solutions through our various platforms and services offerings because we do not control the good or service to be provided and we recognize revenue based on the amount that we are contractually entitled to receive for performing the distribution service on behalf of our customers using our platform. Our revenue under GAAP can fluctuate materially due to changes in the revenue mix between these revenue categories. Net Revenue is a non-GAAP measure and is calculated as revenue presented under GAAP less (i) the cost of Pinned Airtime sold by us, and (ii) commissions paid to third parties selling all other agency-based pre-paid solutions (including Pinless Airtime, electricity and other

products) provided through our distribution channels. We believe that the use of Net Revenue is meaningful to users of financial information because it seeks to eliminate the impact of the change in the revenue mix from the revenue categories over the periods presented.

Fundamental net earnings (loss) and fundamental earnings (loss) per share

Fundamental net earnings (loss) and earnings (loss) per share is GAAP net loss and loss per share adjusted for the amortization of acquisition-related intangible assets (net of deferred taxes), stock-based compensation charges, and unusual non-recurring items, including costs related to acquisitions and transactions consummated or ultimately not pursued.

Fundamental net loss and loss per share for fiscal 2025 also includes adjustments related to changes in the fair value of equity securities (net of deferred tax), loss on disposal of equity-accounted investments and intangible asset amortization, net related to non-controlling interests.

Fundamental net earnings (loss) and earnings (loss) per share for fiscal 2024 also includes an impairment loss related to an equity-accounted investment, and a reversal of allowance for doubtful loan receivable.

Management believes that the Group Adjusted EBITDA, fundamental net earnings (loss) and fundamental earnings (loss) per share metrics enhance its own evaluation, as well as an investor's understanding, of our financial performance. Attachment A presents the reconciliation between GAAP net loss attributable to Lesaka and these non-GAAP measures.

Headline (loss) earnings per share ("H(L)EPS")

The inclusion of H(L)EPS in this press release is a requirement of our listing on the JSE. H(L)EPS basic and diluted is calculated using net (loss) income which has been determined based on GAAP. Accordingly, this may differ to the headline (loss) earnings per share calculation of other companies listed on the JSE as these companies may report their financial results under a different financial reporting framework, including but not limited to, International Financial Reporting Standards.

H(L)EPS basic and diluted is calculated as GAAP net (loss) income adjusted for the impairment losses related to our equity-accounted investments and (profit) loss on sale of property, plant and equipment. Attachment C presents the reconciliation between our net (loss) income used to calculate (loss) earnings per share basic and diluted and H(L)EPS basic and diluted and the calculation of the denominator for headline diluted (loss) earnings per share.

Indirect tax provision release relates to the reversal of a non-recurring indirect tax provision created in fiscal 2023 which was resolved in fiscal 2025 following settlement of the matter with the tax authority. Income recognized related to closure of legacy businesses represents (i) gains recognized related to the release of the foreign currency translation reserve on deconsolidation of a subsidiaries and (ii) costs incurred related to subsidiaries which we are in the process of deregistering/ liquidation and therefore we consider these costs non-operational and ad hoc in nature.

Denominator for headline diluted loss per share	<u>79,753</u>	<u>63,805</u>	<u>72,037</u>	<u>63,134</u>

Weighted average number of shares used to calculate headline diluted loss per share represents the denominator for basic weighted-average common shares outstanding and unvested restricted shares expected to vest plus the effect of dilutive securities under GAAP. We use this number of fully diluted shares outstanding to calculate headline diluted loss per share because we do not use the two-class method to calculate headline diluted loss per share.
